

## 新奥集团—新奥科技发展有限公司简介

新奥集团专注清洁能源产业，以能源开发和利用方式的创新为基础，以技术创新为牵引，构建了能源开发、能源转化、能源分销以及能源物流的基于能源价值链的产业链条，并投资于能源装备、智能科技、园区地产、生物化工等产业协同发展，形成了技术推动、业务发展和人才培养互相支持的事业平台。

目前，集团拥有员工 2.5 万余人，总资产过 315 亿元人民币，100 多个全资、控股公司和分支机构分布在国内 80 多个城市及英国、美国、澳大利亚等国家的重要城市。

新奥科技发展有限公司成立于 2006 年 8 月，致力于为新奥能源战略的持续发展提供技术支撑，已初步构建了一支国际化的科技研发和技术管理团队，集成国内外优势科技资源，围绕“C 经济、智能化”的核心思想，以二氧化碳资源化利用技术突破为核心，进行能源生产清洁和能源应用清洁的关键技术创新，不断提升以自主知识产权为主导的技术优势，并形成综合技术解决方案，以支持能源战略实现。

新奥科技公司现有海内外创业博士二十余名，并建有博士后工作站，在北京、上海及北美设有研发分院，公司为员工提供有竞争性的薪酬、完善的福利待遇，畅通的职业发展平台，欢迎有志于投身清洁能源事业的优秀科技人才加盟新奥！同时也期望与大型研究院所和机构开展学术交流和博士后培养合作！共创清洁能源事业的未来！

## 新奥科技发展有限公司招聘职位

新奥科技主要科研项目分布在：微藻生物能源技术、煤基催化气化技术、制氢技术以及系统能效技术领域，以下职位要求硕士及以上学历，并在相关专业技术或管理领域有5年以上工作经验，具体职位如下：

序号	领域	职位	数量
1	高级技术管理人才	新奥科技副总裁	1
2		北京分院副院长	1
4		上海分院副院长	1
5		北美分院副院长	1
6	高级研发人才	系统能效专家（智能控制/化工及过程工艺/计算机/数学）	8
7		网络软硬件专家及工程师	1
8		工艺流程优化专家及工程师	1
9		DCS 控制系统专家及工程师	1
10		煤气化（地上、地下）专家及工程师	1
11		酶化学专家及工程师	1
12		生物能源专家及工程师	1
13		制氢专家及工程师	1
14	高级运营管理人才	人力资源总监	1
15		战略绩效总监	1
16		知识产权总监	1
17		技术评价总监	1
18		技术产业化运作总经理	1

## **ENN Science & Technology Development Co., Ltd.**

ENN Group, focusing on clean energy industry, takes on energy development and utilization method innovation as its basis, and regards technology innovation as its traction. Based on energy value chain, the Group has formed an industrial chain integrating energy exploration, conversion, distribution and logistics, which is developed collaboratively with industries including energy equipment, intelligence technology, industrial estate, biochemical, etc. Moreover, ENN has established platform for technology promotion, business development and talent cultivation to support each other.

At present, ENN had set up more than 100 subsidiaries, holding companies and offices in over 80 cities across China and in countries including U.K., USA, Australia, etc., and had employed more than 23,000 people with total assets exceeding USD 4 billion.

Founded in August 2006, ENN Science & Technology Development Co., Ltd. is devoted to providing technology support for the sustainable development of ENN's energy strategy. Relying on its international R&D and management team, it strives to make breakthroughs in CO2 recycling technology by integrating the superior science & technology resources both home and abroad. Focusing on the core concept of "C Economy & Intelligence", ENN Science & Technology is committed to the key technologies innovation in the clean production and application of energy to continuously improve and utilize its technologies with independent intellectual property, and provide comprehensive technology solutions to promote the realization of ENN's energy strategy.

Focusing on the development of carbon-cycling technology, ENN Science & Technology aims to provide eternal technology support for ENN Group to realize its mission of "innovation of clean energy development, improvement of living environment, and enhancement of life quality", and finally to accelerate social progress as well as achieve the harmonious development between human and nature, economy and environment.

The Company provides employees with competitive compensation, munificent welfare and open career development platform. We welcome excellent talents, who wish to be devoted to clean energy cause, to join in ENN and create a common future for clean energy cause.

**Recruitment of ENN Science & Technology Development Co., Ltd.**

The major scientific research items of ENN Science & Technology are in the field of algae bioenergy technology, catalytic coal-based gasification technology, hydrogen production technology and system energy efficiency technology. The following wanted position requires the educational qualification of master and doctor, with more than 5 years work experience in the field of relevant technology and management.

No.	Title	Position	Amount
1	senior hi-tech management personnel	Vice President of ENN Science & Technology	1
2		Deputy Director of Beijing Branch Institute	1
4		Deputy Director of Shanghai Branch Institute	1
5		Deputy Director of North American Branch Institute	1
6	senior R&D personnel	system efficiency expert(Intelligent controll Chemical engineering and technology, Computer science/mathematichs/ control)	8
7		Network Hardware and software Specialist &Engineer	1
8		Process Optimization Specialist &Engineer	1
9		Control System Specialist &Engineer	1
10		Coal Gasification(overground and underground) Specialist &Engineer	1
11		Zymochemistry Specialist &Engineer	1
12		Bioenergy Specialist &Engineer	1
13		Hydrogen Production Specialist &Engineer	1
14	senior managerial and administrative personnel	HR Director	1
15		Strategy Performance Director	1
16		IP Director	1
17		Technology Assessment Director	1
18		Technology Induatrialization Operation General Manager	1
